

Chamber Packaging Machine

Product Display

Double chamber

The double chamber machine has two chambers and a swing lid. One of the machine's benefits is that while products are being packed in the first chamber, the second chamber can be loaded for the next cycle, time saving and efficient. The machine can be used to pack all kinds of goods, durable to reliable.

Option

1. Inflatable with gas
2. PLC control customizable chamber size
3. Vacuum pump type 20/63/100/160/200 is available
4. Different type of vacuum pump is available

Product Specifications

1. Power: 380 V / 220 V, 50 Hz
2. Chamber size: 580 – 966 x 535 / 625 x 100 mm, depending on machine type
3. Effective sealing length: 400 – 800 x 8 (10) / 2 mm, depending on machine type
4. Capacity: 120 – 300 cycles/hour
5. Dimension: 1114 – 1890 x 590 x 850 mm, depending on machine type
6. Weight: 170 – 330 KG depending on machine type
